TS-2750 NATIVE LANDSCAPE CONTRACTOR FOR GREEN INFRASTRUCTURE
TS-2755 NATIVE LANDSCAPE CONTRACTOR FOR WATERCOURSE & LAND STEWARDSHIP

RESPONSES TO QUESTIONS
FEBRUARY 5, 2026

The following are responses to questions submitted through 02/05/2026:

1. If we submit our qualifications for the Native Landscape Contractor for Watercourse & Land Stewardship RFQ (TS-2755), do we also need to submit a separate prequalification package for the Native Landscape Contractor for Green Infrastructure RFQ (TS-2750)?

   The RFQ notes that firms accepted for TS-2755 will be automatically added to the prequalified contractor list for TS-2750**. Please confirm whether a single submission under TS-2755 is sufficient to be considered for both RFQs, or if separate submissions are required.**

   Correct. If the firm is qualified for the Watercourse RFQ (2755), that firm is automatically qualified for the GI RFQ (2750). The Watercourse RFQ has additional requirements for qualification, including prescribed burn requirements.
